

Welcome to Scottsdale Children's Group!!!

At Scottsdale Children's Group, we take great pride in our excellent services and team of staff and providers. We currently have a nurse practitioner to complement our physicians. Our nurse practitioner is highly educated, board certified and well experienced with the pediatric population. The nurse practitioner works closely with your pediatric physician to meet your child's needs.

We have a 24 hour triage service that provides prompt triage assistance for our parents and caregivers during office hours, after office hours and during the weekend for continuity. You can reach our triage nurses by dialing our main number: 480-609-8100 any time of day or night. Also, most insurance companies have a help hotline or a nurse helpline.

We are happy to be able to offer Saturday hours for urgent care. Visits are by appointment only at this time. Saturday hours will vary by location. Please call 480-609-8100 for same day sick visits.

Our group accepts most major insurance and PPO plans. Please call us for assistance with verification of your insurance plan acceptance.

Thank you for choosing Scottsdale Children's Group. Welcome to our practice.
